Gross Expense Ratio	6.79%	8.83%
Minimum Investment	\$2,500	\$100,000

<sup>^^</sup>SKBA has agreed to reduce its fees and/or reimburse certain expenses of the Fund to the extent necessary that the Fund's total annual operating expenses do not exceed 0.70% of its average daily net assets. The agreements will end on January 31, 2020 unless renewed or the Board of Trustees approves earlier terminations. SKBA is entitled to recover waived fees and reimbursed expenses up to three years from the year of waiver/reimbursement.

**Investment Philosophy**

SKBA believes stock prices routinely overshoot true changes in the underlying fundamentals of a company, both on the upside and downside, due to excessive pessimism or exuberant optimism. The firm seeks to develop insightful, proprietary research within a consistent process, to identify inexpensive securities that will outperform the overall market in the long-run.

**Our Approach**

SKBA's valuation framework begins with the evaluation of a company's current and long-term Relative Dividend Yield (RDY) in relation to a proprietary index of the largest dividend-paying companies. A high RDY compared to a company's history can help to identify when the market has a pessimistic view of its underlying earning power.

These companies are subjected to further in-depth fundamental analysis where analysts determine a company's normal earnings power – its long-term ability to generate profit for reinvestment or distribution to shareholders – and if an investment would offer sufficient return potential.

**| Total Returns (%)**

as of December 31, 2018

*The performance data quoted represents past performance. Past performance does not guarantee future results. Performance for periods greater than one year are annualized figures. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance current to the most recent month-end, please call 1-855-409-2297. Performance would have been lower without expense limitations in effect. All returns include the reinvestment of dividend and capital gain distributions. The Morningstar US Large Value Index and the S&P 500 Value Index are unmanaged indices. Individuals cannot invest in an index.*

*On 12/02/2013, a collective trust (the "Predecessor Vehicle") was converted into the Baywood ValuePlus Fund (the "Fund"). The Predecessor Vehicle's performance to 12/2/2013 has been included for Investor Shares. For the Institutional Shares, performance include the returns of Investor Shares prior to 5/2/2011, the commencement of operations of Institutional Shares. The Predecessor Vehicle's performance for shares in each class has been adjusted to reflect the monthly deduction of fees and expenses applicable to their respective share class of the Baywood ValuePlus Fund. The Predecessor Vehicle was not registered as a mutual fund under the Investment Company Act of 1940, as amended ("1940 Act"), and therefore was not subject to certain investment restrictions, limitations and diversification requirements imposed by the 1940 Act and Internal Revenue Code. If the Predecessor Vehicle had been registered under the 1940 Act its performance may have been different.*

**SKBA Capital Management**

SKBA Capital Management, LLC is an independent San Francisco based boutique investment management firm founded in 1989. The firm manages equity and fixed income portfolios for institutions and private clients using its time-tested value approach seeking to preserve and increase clients' capital while maintaining appropriate risk exposure and downside protection.

*Risk considerations: The Fund primarily invests in undervalued securities which may not appreciate in value as anticipated by the Adviser or remain undervalued for longer than anticipated. The Fund may invest in American Depositary Receipts (ADRs) which involves risks relating to political, economic or regulatory conditions in foreign countries and may cause greater volatility and less liquidity. These factors could negatively impact the Fund's returns.*

*^Source: FactSet. Aggregate price ratios are calculated using weighted harmonic averages. **P/E** (Price to Earnings Ratio): A valuation ratio of a company's current share price compared to its per-share earnings. **P/S** (Price to Sales Ratio): A valuation ratio of a company's current share price compared to per-share sales. **Alpha**: Alpha measures nonsystematic return or the return that cannot be attributed to the market. **Standard deviation**: A measure of dispersion of a data set from its mean. **Sharpe ratio**: A measure that indicates the average return minus the risk-free return divided by the standard deviation of return on an investment.*

*\*Alpha, Standard Deviation and Sharpe Ratio are calculated using PSN Enterprise versus the Morningstar US Large Value Index.*

Baywood Funds are advised by SKBA Capital Management, LLC and distributed by Foreside Fund Services, LLC.
